# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The Prison Rape Elimination Act (PREA) on-site audit of Madison County Community Work Center (MCCWC) was conducted on May 21, 2019. The audit was performed by Alton Baskerville, Certified PREA auditor and assisted by Phyllis Baskerville, a retired corrections warden.

Six weeks in advance of the audit, posters with contact information for the auditor, were placed throughout the facility to alert residents and staff of the impending audit. The notices were seen posted throughout the facility on the day of the on-site audit.

The Pre-Audit Questionnaire was submitted to the auditor approximately two weeks prior to the audit. Other documentation submitted included policies, procedures, organization charts, posters, inmate handbook, and other PREA related materials. A review of the materials raised some questions about the accuracy of some of the numbers on the Pre-Audit Questionnaire. Corrections were provided to clear up concerns on the Pre-Audit Questionnaire.

The audit team was escorted to the facility by Zac Houston and Kim Dingess. We were greeted by Commander Valerie Buie, several members of her staff, Mr. Everett Matheney, Warden and Ms. Christy Gutherz, Deputy Commissioner, Community Corrections. We had the entry meeting in the dining area where we made introductions and shared information and expectations concerning the audit. Mr. Sean Smith, Director of Corrections Investigations (CID), came the center to meet the auditors and to provide support to the PREA recertification process.

We were given a complete tour of the facility, including the two-bay housing unit, kitchen, storage areas, recreation yard, and administrative area. The two housing bays have 60 beds on one side and 40 beds on the other side. The official count was 61 on the day of the on-site audit. The PREA hot line notice and the PREA visitation letter were posted in the housing zones and in the dining hall. Video cameras were mounted in the front and the rear of each housing zone, dining hall and kitchen area. Monitors were in the control room which is located between the two bays.

The restroom, showers and laundry area were between the two bays adjacent to the control room. The laundry area was locked behind a metal mesh screen. Showers were in view of the control room officer with a half curtain providing privacy in the shower area. It was explained that the inmates had to go at least ten feet from the shower area to put their clothing

on a partition cinder block wall before showering. They will have to leave the shower area while undressed to get their clothing off the wall. This act did not provide inmates privacy to dress and to undress while taking a shower. I recommended hooks be placed just outside the shower so the inmates can hang their clothing outside the shower within arm reach to retrieve their clothing so they can dress while they are in the Shower stall. Hooks were placed outside the shower stall within a couple of hours. The toilets were separated by metal partitions, providing privacy for the residents.

There are six inmate telephones, three on each side of the housing unit. One telephone was not working on B pod, not allowing access to the PREA Hot line. The five other telephones were tested and allowed access to the PREA Hot line.

The facility submitted a work order for the telephone immediately. The telephone was tested two hours later and it was working properly.

The kitchen area was very clean and had all storage areas locked. Three years ago, I made a suggestion to install a mirror to cover a blind spot in the storage area where the freezer is located. This area was locked and reportedly the practice is to always have a staff person to escort an inmate in the storage area. Two cameras have been installed to cover the blind spots in the storage and freezer areas.

The facility was very clean and showed evidence of fresh paint throughout. The staff was professional and experienced. The residents were well groomed, polite and cooperated well with the audit team.

After completing the tour, we were given private offices to review audits files and to conduct interviews. We interviewed (5) random staff from day and night shifts, (6) specialize staff, (1) volunteer, and (1) contractor. Staff was knowledgeable concerning PREA, and how to respond to an incident. Documentation verified recent training of all staff interviewed and those who were not interviewed.

A total of sixteen (16) residents were interviewed. All were familiar with PREA and acknowledged receiving PREA training upon arrival at the center. Written documentation supports the training of all residents interviewed. A review of documentation of ten additional residents confirmed PREA training. There were no special needs residents assigned to the center. Neither were there any gay, transgender, intersex residents at the center.

The audit team had an exit meeting with Commander Buie, Mr. Matheney, Ms. Gutherz, Zac Houston and other staff in the Administrative area. The audit team informed them that they appeared to meet the requirements of all 41 standards. However, a final decision will be made after finishing the PREA Report. We congratulated them on this accomplishment. The strong support of top management in the presence of Mr. Matheney, Ms. Gutherz and Mr. Smith was noted.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

Madison County Community Work Center (MCCWC) is an adult male residential community center located in at 140 Corrections Dr., Canton, MS. The town of Canton has a population of approximately 13,000 residents and is in the Northern section of the Jackson Metropolitan area. MCCWC is immediately adjacent to the Madison County Jail. The physical plant consists of a single pre-engineered steel building. The building was completed in 1985. Residents are housed in a two-bay dormitory that is separated by a control room, rest room, shower area and laundry room. There is a central corridor that runs the length of the building. The administrative offices, dining room and kitchen are located across from the living unit. The Center is surrounded by an eight-foot fence. There is a recreation yard including a covered pavilion. Two small storage sheds are located just outside the main building.

### Summary of Corrective Action (if any)

The audit team found MCCWC in violation of standard (115.215). Residents were not able to dress before and after going into the shower stall without being viewed by staff of the opposite gender. Corrective action was completed within two hours. One inmate telephone was not working and preventing residents from accessing the PREA hot line. This was in violation of standard (115.251). This violation was corrected two hours later.

- ☐ **Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

MDOC has entered into or renewed a contract for the confinement of residents on or after August 20, 2012 or since the last PREA audit. Such contracts do require contractors to adopt and comply with PREA standards. Additionally, the contracts do require MDOC to monitor the contractor's compliance with the PREA standards. A review of file documents and discussion with the statewide PREA Coordinator support compliance of this standard.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

MDOC Statewide SOP 20-14-01 requires all facilities to meet the requirement of this standard. There have been no deviations from the staffing plan in the past 12 months at MCCWC. Further, MCCWC had no reports of inadequacy for this standard. MCCWC has video monitoring in all the resident dormitories. The facility requires intermediate level and higher level staff to conduct unannounced rounds to identify and to deter staff sexual abuse and sexual harassment. Policy prohibits staff from alerting other staff of the conduct of unannounced rounds. A review of daily Unit Registers of the housing unit show frequent security rounds by officers and supervisors. I find MCCWC in compliance of this standard because of the above stated reasons.

#### Auditor Overall Compliance Determination

- ☐ **Exceeds Standard** (*Substantially exceeds requirement of standards*)
- ☒ **Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- ☐ **Does Not Meet Standard** (*Requires Corrective Action*)

#### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

MDOC Policy 16.07 governs PREA compliance for the standard. MCCWC does not conduct cross-gender strip or visual body cavity searches of residents. During the unit tour, auditors noted announcements being made when females entered the housing units. Interviews with staff and residents verified the practice of female staff making announcements. The audit team found MCCWC in violation of standard (115.215). Residents were not able to dress before and after going into the shower stall without being viewed by staff of the opposite gender. Corrective action was completed within two hours. Residents were able to use the toilets without being viewed by staff of the opposite gender I find MCCWC in compliance of this standard because of the above stated reasons.

#### Auditor Overall Compliance Determination

- ☐ **Exceeds Standard** (*Substantially exceeds requirement of standards*)
- ☒ **Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

☐ **Does Not Meet Standard** (Requires Corrective Action)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

MDOC Policy 20-14-01 has established procedures to provide disabled and limited English proficiency inmates equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. MDOC has contracted with an agency for interpreter services to ensure effective communication with inmates with disabilities and limited English proficiency. Staff indicated that resident interpreters would only be used in reporting allegation of sexual abuse or harassment in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties or investigation of the inmate's allegations. I find MCCWC in compliance of this standard.

MDOC Policy 20-14-01 requires all inmates to be screened for risk of sexual victimization or risk of sexual abusing other inmates within 72 hours of their intake. Interviews with residents confirmed that they were screened within 72 hours of their intake. All residents who were interviewed indicated they were screened within seventy-two hours of their intake. Random review of six record files support initial screening within 72 hours, psychological screening, and reassessment within 30 days from date of arrival. I find MCCWC to be in compliance of this standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. MDOC has established procedures allowing for multiple internal ways for inmates and staff to privately report sexual abuse or harassment of inmates, retaliation and staff neglect or violation of responsibility that may have contributed to such incidents. MDOC has signed a memorandum of understanding with the Mississippi Coalition against Sexual Assault to provide their contact information for residents who wish to confidentially report incidents to an outside entity. Additionally, MCCWC residents and staff may call a confidential hotline to report suspected instances of sexual assault. However, during the tour of the Center, one of the telephones in the housing area was out of order. A work order was submitted immediately, and the telephone was working within two hours of the finding. Another avenue for residents to report incidents is to file a grievance; staff may complete an incident report. During interviews, residents stated that they could talk to any of the staff if there were any issue. Several expressed that they felt safe and knew of the PREA safety postings on the bulletin boards in

the housing units, dining hall, and other common areas. A find MCCWC to be in compliance of this standard based upon corrective action taken, interviews of staff and residents, observations during the tour, and review of relevant policies and procedures.

## **Standard 115.252: Exhaustion of administrative remedies**

### **All Yes/No Questions Must Be Answered by the Auditor to Complete the Report**

#### **115.252 (a)**

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. - If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.252(d)(3)] , does the agency notify the resident in writing of any such

extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☐ Yes ☒ No ☐ NA

- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? MDOC Policies 20-14-01 and 20.05 establish administrative procedures for dealing with inmate grievance regarding sexual abuse. Resident interview responses indicate that they are aware of their right to file a grievance to address a PREA allegation. In the past 12 months, no grievances were filed for imminent sexual abuse with a final decision reached within five days. I find MCCWC in compliance based upon review of policies and procedures, relevant documents, and interviews of staff and inmates.

The MDOC website posts a designated phone number for third parties to call and to confidentially report incidents of resident's sexual abuse or sexual harassment. The designated phone number is also visible on PREA TIP Line posters in the facility. These posters were observed during the unit tour. When residents were interviewed their responses confirmed that they knew of the posters and the information contained. I find MCCWC in compliance of this standard based on the above stated reasons.

### Instructions for Overall Compliance Determination Narrative

MDOC Policy 12-40-01 requires the agency to review data collected in order to access and to improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices and training. Annual reports, approved by the MDOC Commissioner, containing institutional assessment information posted online at [www.mdoc.state.ms.us](http://www.mdoc.state.ms.us). I find MCCWC to be in compliance of this standard based upon my review of policy, reporting documents, online website posting and interview with Statewide PREA Coordinator.

When the audit was completed, the auditor conducted an exit briefing on May 21, 2019. The auditor gave the Administrative Staff a preliminary overview of the audit and thanked the staff for their hard work and commitment to the Prison Rape Elimination Act. After the onsite audit, the auditor utilized the Auditor Compliance Tool for Community Confinement as a guide in determining compliance with each standard, and created a Final Report documenting the facility's compliance. In order to determine compliance, the auditor used the information and documentation provided during the pre-audit, onsite documentation review, information obtained through inmate and staff interviews, as well as visual observations during the facility tour.
